REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Regarding each of the independent claims, after further consideration of the prior art of record, it has been determined that the prior art of record has not explicitly taught, either individually or in combination, that zero-extension is performed because of a determination that the address space subset of the first bit size (32 bits) is an unsigned address space. That is, in the prior art of record (Killian), bit 32 is always the sign bit, which would make the address space signed address space (as argued in the appeal brief filed on June 28, 2006, at the end of page 11, through page 12).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
